INDEX

ABRAHAM, E. P. Experiments relating to the constitution of alloxazine-adenine-dinucleotide 543

ABRAHAM, E. P. Some properties of egg-white lysozyme 622

Absorption, ultraviolet, of sheep thyroglobulin (Ginsel) 428

Acetamino-acids, partition of, between immiscible solvents (Synge) 1913

Acetate, effect of, on therapeutic action of sulphanilamide (James) 1688

Acetylcholine, biological synthesis of (Stedman and Stedman) 811

Acetylcholine metabolism in the central nervous system (Mann, Tennenbaum and Quastel) 822, 1506

N-Acetyl derivatives, separation of amino-acids by means of their (Synge) 1918

Acid loss and carbohydrate, relation of, to carbon dioxide production in stored fruit (Donen and Roux) 1947

Acids, retention of, by serum based on the retention coefficient: its use in manometric experiments (Dickens) 230

Acids, the splitting of haemoglobin by (Gralén) 1907

Aconitase (Johnson) 1046

Adenosine and adenylic acid, deaminases of, in blood and tissues (Conway and Cooke) 479

Adenylic acid in the nutrition of the rat (el Sadr, Macrae and Work) 601

ADLER, E., v. EULER, H., GÜNTHER, G. and PLASS, M. *iso*Citric dehydrogenase and glutamic acid synthesis in animal tissues 1028

Ages, various, iron, copper and manganese in human organs at (Brückmann and Zondek) 1845

Alanine and glycine, a comparison of the metabolic pathways of (Reid) 723

Albino rats, replaceability of *dl*-methionine in diet of (Bennett) 1794

Albumin, egg, peptic digestion of (Tiselius and Ericksson-Quensel) 1752

Albumin, egg, and serum globulin, carbobenzyloxy derivatives of (Gaunt and Wormall) 908

Albumin, human serum, purified, the effect of ultraviolet radiation and of soft X-rays on (Sanigar, Krejci and Kraemer) 1

Alimentary tract, influence of diet on the absorption of lead from the (Tompsett) 1237

Alloxazine-adenine-dinucleotide, constitution of (Abraham) 543

Alloxazine-adenine-dinucleotide, in the nutrition of the rat (el Sadr, Macrae and Work) 601

ALMQUIST, H. J. and KLOSE, A. A. Determination of the anti-haemorrhagic vitamin 1055

Amidines and guanidines, action of, on the Pasteur effect (Dickens) 2017

Amine oxidase (Bhagvat, Blaschko and Richter) 1338

Amino-acids, basic, of leaf proteins (Tristram) 1271

Amino-acid composition of rabbit myosin (Sharp) 679

Amino-acids, partition of acetyl derivatives of, between immiscible solvents (Synge) 1913

α-Amino-acids, preparation of, through α-oximino-esters (McIlwain and Richardson) 44

Amino-acids, separation of, by means of their *N*-acetyl derivatives (Synge) 1918

Amino-acids, sulphur-containing, in the diet of the albino rat, replaceability of *l*-cystine by (Bennett) 885

Amino-acids, sulphur-containing, oxidation of, by liver enzymes (Medes) 1559

Amino-group, aromatic, role of, in deranged pigment metabolism (Brownlee) 697

Amino-nitrogen, determination of (Pope and Stevens) 1070

Amino-polyhydroxy compound from *Brucella melitensis* antigen, hydrolysis and acetylation of (Miles and Pirie) 1716

Ammonia, blood (Conway and Cooke) 457

Ammonia content of canine blood after oral administration of ammonium salts and ammonia (Koprowski and Uniński) 747

Amphibian development, nitrogen excretion and arginase activity during (Munro) 1957

ANDERSON, A. B. *see* OASTLER, E. G.

ANDERSON, C. G., HAWORTH, W. N., RAISTRICK, H. and STACEY, M. Polysaccharides synthesized by micro-organisms. IV. The molecular constitution of luteose 272

Aneurin in urine, thiochrome test for, as an index of nutritional level (Hills) 1966

Animal tissues, enzymic synthesis of cocarboxylase in (Ochoa) 1262

Animal tissues, metabolism of α-ketoglutaric acid in (Krebs and Cohen) 1895

Anions, organic, of human erythrocytes (Farmer and Maizels) 280

Anterior pituitary extracts, effect of continued treatment with, on lactation in the cow (Folley and Young) 192

Antigenic preparations from *Brucella melitensis*, properties of (Miles and Pirie) 1709, 1716

Anti-haemorrhagic vitamin, determination of (Almquist and Klose) 1055

Antrypol and Bayer 205 (Germanin) (Boursnell, Dangerfield and Wormall) 81; (Boursnell and Wormall) 1191

ARCHIBALD, R. M. *see* NICHOLSON, T. F.

Arginase activity and nitrogen excretion during amphibian development (Munro) 1957

Arginine and ornithine, enzymic methods for the preparation of (Hunter) 27

ARNEY, S. E. Phosphate fractions in barley seedlings 1078

Aromatic amino group, role of, in deranged pigment metabolism (Brownlee) 697

Ascorbic acid and haemoglobin, coupled oxidation of (Lemberg, Legge and Lockwood) 754
Ascorbic acid, oxidation of, in blood serum (Mystkowski and Lasocka) 1460
Ascorbic acid, physiological properties of (Fidlar, Sheppard and McHenry) 344; (Sheppard and McHenry) 655
Ashley, J. N., Raistrick, H. and Richards, T. Studies in the biochemistry of micro-organisms. LXII. The crystalline colouring matters of the species in the *Aspergillus glaucus* series. Part II 1291
Aspergillus glaucus, crystalline colouring matters of the series of (Ashley, Raistrick and Richards) 1291
Aspergillus terreus Thom, itaconic acid, a metabolic product of (Calam, Oxford and Raistrick) 1488
Aspergillus terreus Thom, the molecular constitution of two chlorine-containing metabolic products of (Calam, Clutterbuck, Oxford and Raistrick) 579
Atractoscion aequidens C. and V., Vitamin A content of certain visceral organs of (Molteno and Rapson) 1390
Avian and mammalian muscle, minced, *in vitro* action of insulin on (Shorr and Barker) 1798

Bach, S. J. On the mechanism of urea formation 1833
Bach, S. J. Experiments on the metabolism of glycine 90
Bach, S. J. The effect of phloridzin on carbohydrate metabolism *in vitro* 802
Bacillus, tubercle, enzyme of (Moerke) 435
Bacteria, lactic acid, action of, on phosphoglyceric acids (Katagiri and Murakami) 1257
Bacteria, propionic acid, carbon dioxide utilization during the dissimilation of glycerol by (Phelps, Johnson and Peterson) 726
Bacteria, propionic acid, production and utilization of lactic acid by (Phelps, Johnson and Peterson) 1606
Bacteria, root nodule, of leguminous plants (Virtanen and Laine) 412
Bacterial cell, inactivation of formic dehydrogenase by oxygen in (Gale) 1012
Bact. coli, dehydrogenase of (Gale and Stephenson) 1245
Bact. coli, formic dehydrogenase of (Gale) 1012
Bailey, K. The proteins of electrical tissue 255
Baker, A. Z. and Wright, M. D. A survey of the rat bradycardia method of estimating vitamin B_1 1370
Bandier, E. Quantitative estimation of nicotinic acid in biological material 1130
Bandier, E. Quantitative estimation of nicotinic acid in urine 1787
Bandier, E. and Hald, J. A colorimetric reaction for the quantitative estimation of nicotinic acid 264
Banerji, G. G. and Harris, L. J. Methods for assessing the level of nutrition. A carbohydrate tolerance test for vitamin B_1. I. Experiments with rats 1346
Banfi, R. F. *see* Marenzi, A. D.
Banga, I., Ochoa, S. and Peters, R. A. Pyruvate oxidation in brain. VI. The active form of vitamin B_1 and the role of C_4 dicarboxylic acids 1109
Banga, I., Ochoa, S. and Peters, R. A. Pyruvate oxidation in brain. VII. Some dialysable components of the pyruvate oxidation system 1980
Barger, G. Obituary notice of 859
Barker, S. B. *see* Shorr, E.
Barley and wheat, vitamin B_1 content of, effect of soil treatment on (Leong) 1397
Barley seedlings, phosphate fractions in (Arney) 1078
Basic amino-acids of leaf proteins (Tristram) 1271
Baumann, C. A. and Moore, T. Thyroxine and hypervitaminosis-A 1639
Bayer 205 (Germanin) and Antrypol (Boursnell, Dangerfield and Wormall) 81; (Boursnell and Wormall) 1191
Belfanti, S. Obituary notice of 864
Bennett, M. A. Metabolism of sulphur. VII. A quantitative study of the replaceability of *l*-cystine by various sulphur-containing amino-acids in the diet of the albino rat 885
Bennett, M. A. Metabolism of sulphur. X. The replaceability of *dl*-methionine in the diet of albino rats with its partially oxidized derivative, *dl*-methionine sulphoxide 1794
Bennison, E. W. and Norris, F. W. The pectic substances of plants. VI. The relation between jelly strength, viscosity and composition of various pectins 1443
Berenblum, I. and Wormall, A. The immunological properties of proteins treated with $\beta\beta'$-dichlorodiethylsulphide (mustard gas) and $\beta\beta'$-dichlorodiethylsulphone 75
Berenblum, I., Chain, E. and Heatley, N. G. The study of metabolic activities of small amounts of surviving tissues 68
Berenblum, I. *see also* Heatley, N. G.
Bergel, F. *see* Work, T. S.
Bergström, S. *see* Jorpes, E.
Beri-beri, accumulation of carbonyl compounds in (Platt and Lu) 1525
Beri-beri, zinc content of epidermal structures in (Eggleton) 403
Bhagvat, K., Blaschko, H. and Richter, D. Amine oxidase 1338
Biochemistry of micro-organisms (Oxford, Raistrick and Simonart) 240; (Calam, Clutterbuck, Oxford and Raistrick) 579; (Ashley, Raistrick and Richards) 1291; (Calam, Oxford and Raistrick) 1488
Biochemistry of silicic acid (King) 944
Biological determination of crystalline vitamin B_1 (Coward and Morgan) 658
Biological fluids, determination of lead in (Tompsett) 1231
Biological fluids, determination of small amounts of sulphur as sulphates in (Marenzi and Banfi) 1879
Biological material, determination of lactic acid in, using ceric sulphate (Gordon and Quastel) 1332
Biological material, determination of sulphur in (Masters) 1313

Biological potency of vitamin A esters (Underhill and Coward) 589
Biological synthesis of acetylcholine (Stedman and Stedman) 811
Biological vitamin D assay of low-potency material, and the role of the mineral content of the diet (Gridgeman, Lees and Wilkinson) 645
Birds, liver of, vitamin A and carotenoids in (Jensen and With) 1771
Blacktongue and normal dog, V-factor content and oxygen consumption of tissues of (Kohn, Klein and Dann) 1432
Blaschko, H. *see* Bhagvat, K.
Blauth-Opieńska, J. *see* Truszkowski, R.
Blood ammonia (Conway and Cooke) 457
Blood and tissues, the deaminases of adenosine and adenylic acid in (Conway and Cooke) 479
Blood, canine, ammonia content of, after oral administration of ammonium salts and ammonia (Koprowski and Uniński) 747
Blood corpuscles, possible exchange of potassium ions in, with those of plasma (Hahn, Hevesy and Rebbe) 1549
Blood, estimation of cocarboxylase in (Goodhart and Sinclair) 1099
Blood, estimation of "true" sugar in (Haslewood and Strookman) 920
Blood, estimation of vitamin B_1 in (Sinclair) 2027
Blood pyruvate, effect of exercise on, in vitamin B_1-deficiency (Lu and Platt) 1538
Blood pyruvate levels in the rat, pigeon, rabbit and man (Lu) 774
Blood pyruvate, method for estimation of (Lu) 249
Blood serum, hydrolysis of glutathione by (Woodward) 1171
Blood serum, oxidation of ascorbic acid in (Mystkowski and Lasocka) 1460
Boell, E. J. *see* Needham, J.
Boursnell, J. C., Dangerfield, W. G. and Wormall, A. Studies on Bayer 205 (Germanin) and Antrypol. III. Further observations on the method of determination and on the retention of this drug in the animal body 81
Boursnell, J. C. and Wormall, A. Studies on Bayer 205 (Germanin) and Antrypol. IV. The retention of the drug in the animal body 1191
Boyland, E. and Boyland, M. E. Experiments on the chemotherapy of cancer. III. The independence of tissue respiration and glycolysis, and the growth rate of tumours 618
Boyland, M. E. *see* Boyland, E.
Bradycardia, rat, estimation of vitamin B_1 by (Baker and Wright) 1370
Brain, glycolytic activity of (Geiger and Magnes) 866
Brain, pyruvate oxidation in (Long and Peters) 759; (Banga, Ochoa and Peters) 1109; (Banga, Ochoa and Peters) 1980
Breast muscle, of pigeon, transamination in (Cohen) 1478
Breusch, F. L. The fate of oxaloacetic acid in different organs 1757
Brownlee, G. The role of the aromatic amino group in deranged pigment metabolism 697
Brucella melitensis, antigenic preparations from (Miles and Pirie) 1709, 1716
Brückmann, G. and Zondek, S. G. Iron, copper and manganese in human organs at various ages 1845
Bull testicle, diffusing factors from different sources and preparation of concentrates from (Madinaveitia) 347
Burbank, R. *see* Korenchevsky, V.
Butter fat from cows, acids from, under different nutritional treatments (Houston, Cotton, Kon and Moore) 1626
B-Vitamins, water-soluble (el Sadr, Macrae and Work) 611

Calam, C. T., Oxford, A. E. and Raistrick, H. Studies in the biochemistry of micro-organisms. LXIII. Itaconic acid, a metabolic product of a strain of *Aspergillus terreus* Thom 1488
Calam, C. T., (the late) Clutterbuck, P. W., Oxford, A. E. and Raistrick, H. Studies in the biochemistry of micro-organisms. LXI. The molecular constitution of geodin and erdin, two chlorine-containing metabolic products of *Aspergillus terreus* Thom. Part II. Dihydrogeodin and dihydroerdin and the synthesis of their trimethyl ethers 579
Calcium and magnesium, fate of, after intravenous administration to normal persons (McCance and Widdowson) 523
Calcium and phosphorus, metabolism of, and availability of these elements from milk and from an inorganic source (Henry and Kon) 173
Calcium ion, effect of, on tissue respiration (Greville) 718
Calcium, physico-chemical state of, in serum of ruminants (Ray) 1599
Calcium requirement of older male subjects (Owen) 22
Calcium, retention of, effect of vitamin C on (Henry and Kon) 1652
Callow, N. H. The isolation of two transformation products of testosterone from urine 559
Callow, N. H. and Callow, R. K. The isolation of 17-ketosteroids from the urine of normal women 931
Callow, R. K. *see* Callow, N. H.
Canavanine, preparation of, from *Canavalia obtusifolia* (Damodaran and Narayanan) 1740
Cancer, chemotherapy of (Boyland and Boyland) 618
Canine blood, ammonia content of, after oral administration of ammonium salts and ammonia (Koprowski and Uniński) 747
Cannabis indica resin, active principles of (Work, Bergel and Todd) 123
Cape salmon, vitamin A content of visceral organs of (Molteno and Rapson) 1390
Carbamido diacetyl reaction: a test for citrulline (Fearon) 902
Carbobenzyloxy-proteins, immunological and chemical properties of (Gaunt and Wormall) 908

Carbohydrate and acid loss, relation of, to carbon dioxide production in stored fruit (Donen and Roux) 1947
Carbohydrate in living cells, phosphorylation of (Macfarlane) 565
Carbohydrate metabolism, *in vitro*, effect of phloridzin on (Bach) 802
Carbohydrate metabolism, intermediary, in amphibia (Nowiński) 978
Carbohydrate metabolism, physical exercise and its relationship to (Hobson) 1425
Carbohydrate metabolism, relationship of, to protein metabolism (Cuthbertson and Munro) 128
Carbohydrate tolerance test for vitamin B_1 (Banerji and Harris) 1346
Carbon dioxide production in stored fruit, relation of carbohydrate and acid loss to (Donen and Roux) 1947
Carbon dioxide utilization during the dissimilation of glycerol by the propionic acid bacteria (Phelps, Johnson and Peterson) 726
Carbon metabolism of the Kelsey plum, role of sorbitol in (Donen) 1611; (Donen and Roux) 1947
Carbonyl compounds, accumulation of, in beri-beri (Platt and Lu) 1525
Carcinogenic compound, estimation of iron in the lymph gland of mice during treatment with a (Warren) 729
Cardiac changes, relation of blood pyruvate to (Lu) 774
Carotene, conversion of, into vitamin A_2 by some fresh-water fishes (Morton and Creed) 318
Carotenes, isomerization of (Carter and Gillam) 1325
Carotenoids and vitamin A in liver of various species (Jensen and With) 1771
Carr-Price reaction and intensity of ultraviolet absorption by vitamin A and carotenoids in liver of various species (Jensen and With) 1771
CARTER, C. W. and O'BRIEN, J. R. Maintenance nutrition in the pigeon. Further evidence for the presence of dietary essentials in yeast and liver and their relation to vitamin B_6 1810
CARTER, G. P. and GILLAM, A. E. The isomerization of carotenes. III. Reconsideration of the change of β-carotene to $\psi\alpha$-carotene 1325
Casein, vitamin A content of (Maitra and Moore) 1648
Caseinogen, the products of the action of sodium hydroxide on (Plimmer and Lawton) 530
Castrated rats, prolonged administration of sex hormones to (Korenchevsky, Hall and Ross) 213
Catalase activity during development of chick embryo (Kleinzeller and Werner) 291
Catalytic function of heart flavoprotein (Corran, Green and Straub) 793
Catechol, oxidation of, by polyphenol oxidase (Jackson) 1452
CAVANAGH, B. and RAPER, H. S. A study of the passage of fatty acids of food into lipins and glycerides of the body using deuterium as an indicator 17
Cells, living, the phosphorylation of carbohydrate in (Macfarlane) 565
Cereal diet, the influence of phytin and of fats on the production of rickets by (Palmer and Mottram) 512
Cereals, effect of phytic acid on the rickets-producing action of (Harrison and Mellanby) 1660
Cerebro-spinal fluid, estimation of vitamin B_1 in (Sinclair) 1816
Ceric sulphate, estimation of lactic acid with (Gordon and Quastel) 1332
CHAIN, E. Inhibition of dehydrogenase by snake venom 407
CHAIN, E. *see also* HEATLEY, N. G. *and* BERENBLUM, I.
Cheese, vitamin A content of (Davies and Moore) 1645
Chemotherapy of cancer, experiments on (Boyland and Boyland) 618
Chick embryo and ox retina, metabolism of lactic and pyruvic acids in (Greig, Munro and Elliott) 443
Chick embryo, catalase activity during development of (Kleinzeller and Werner) 291
Chlorine-containing metabolic products of *Aspergillus terreus* Thom, molecular constitution of (Calam, Clutterbuck, Oxford and Raistrick) 579
Chloroplasts, studies on (Neish) 293, 300
Choline, compounds related to, in dietary prevention of fatty livers (Platt) 505
Choline-sphingosine-phosphate in the pancreas (King and Small) 1135
Chromatographic adsorption of coloured esters of sugars (Reich) 1000
*iso*Citric dehydrogenase and glutamic acid synthesis in animal tissues (Adler, v. Euler, Günther and Plass) 1028
l(+)Citrulline (Gornall and Hunter) 170
Citrulline, the carbamido diacetyl reaction test for (Fearon) 902
Clostridium acetobutylicum, nutritive requirements of (Weizmann) 1376
CLUTTERBUCK, P. W. (the late) *see* CALAM, C. T.
Cocarboxylase, enzymic synthesis of, in animal tissues (Ochoa) 1262
Cocarboxylase, estimation of, in blood (Goodhart and Sinclair) 1099
Cocksfoot, changes in the herbage of, during growth (Norman) 1201
Codehydrogenase of *Bacterium coli* (Gale and Stephenson) 1245
Coenzyme factor (diaphorase) (Lockhart) 613
Coenzyme-linked reactions involving *l*(+)glutamic dehydrogenase (Dewan) 549
COHEN, P. P. Microdetermination of glutamic acid 551
COHEN, P. P. Transamination in pigeon breast muscle 1478
